

Kiwanis Club of Barbados South
President's Message - February 2022

February the month of love... Oh how fitting as we know how Kids love Kiwanis and how we love them as well.

It's the second month of a new year and we continue to utilize all the ways we can to reach out to the children and those we serve.

The pandemic has taught us many lessons - one of the most important is the ability to deal with the challenges the club faces in a calm manner and in a positive way.

We continue to show and display love in so many ways to each other, through calls, messages, online meetings and so much more. The pandemic has dampened how we show love but have forced us to think differently and we are embracing it well.

To love one another means to have compassionate concern and care for all people. It is to know the value of living a good life, and of adding value to others life. It produces a meaningful life!

Let us continue to love as if everyone is our brothers and sisters. Take care of this world as if it is our beloved home.

Kiwanians let us continue to connect, let us continue to team up!

President Deanzer
