

Kiwanis Club of Barbados South
President's Message – November 2021

Fellow Kiwanians,

Welcome to November, fellow Kiwanians, a month where we continue to do the work that we signed on to do, which is serving the children of the world.

We have started right by celebrating Key Club Week November 01 – 05, 2021, not by just wearing the K, but by making sure that we engaged them, letting them have a forum to speak to us, this must be applauded.

Despite being in the midst of a pandemic and adopting to a new normal, I am heartened by the projects which we have already been embarking on in just one month and I look forward to more during this month, especially our Annual Independence hampers.

So many people are struggling to put food on the table, so let us dig deep into our hearts to help the future of leaders and the children to make this world a better place for all.

I am inspired to say that the Theme “Kiwanians Lets Team Up” is proving to be so relevant and fitting, as I look at you the members of this club working together, coming up with brilliant ideas and using the “all hands and deck approach” to getting things done.

Let us continue to bring more awareness and understanding of what we do as a Club to reach people and to attract them to join us.

I want us to remember those members who will love to be at meetings and on projects, but are sick, let us also pray for those members who have either passed and or grieving the death of loved ones.

Teamwork is everything Fellow Kiwanians.... Always remember: individually we are one drop, together we are an ocean.

President Deanzer
